1	ROADRASH Rec. Age :- 3 - 8 yrs. The area :- 1.8 m x 0.8 m Safe play area :- 2.8 m x 1.8 m The road rash provides an unlimited fun to the children riding on it. The main frame / body is made from 25 NB, 20 NB, and 15 NB powder coated GI pipes. For attraction purpose rotational molding wheels and steering. The platform is made from 4 mm thick FRP (fiber reinforced plastic) / ROTO molding(LLDPE /HDPE sheet. The seating arrangement is made from FRP (fiber reinforced plastic) ROTO moulding. The foundation support made is fabricated from 40 NB GI pipes. The springs given below the platform are of heavy duty stenciled. All the sharp edges and corners are properly grinded to give smooth finish so that children playing on it are not hurt. All pipes are 'A' class pipes All Structures Are Of Powder Coating . All Work Done As Per General Raw Material Sheet Added Below 	PGKD01	No	77900.00	old rate
2	COMBINATION SET (4 IN 1) Rec. Age :- 2 - 4 yrs. The Area :- 1.8 m x 2.8 m Safe play area :- 2.8 m x 3.8 m The name suggests this item has a combination of four items such as swing, cross-n-zero, slide and seesaw. The complete frame of this item is fabricated from 20 nb and 25 nb powder coated gi pipes. The slide in the combination set is made up of Fiberglass reinforced plastic.(FRP) / ROTO molding(LLDPE /HDPE The slide landing support is made in 20 nb All Structures Are Of Powder Coating . All Work Done As Per General Raw Material Sheet Added Below 	PGKD02	No	37500.00	old rate

5	FLYING BUTTERFLY Rec. Age :- 4 - 12 yrs. The area :- 1.5 m x 2 m Safe play area :- 2.5 m x 3 m The leg support of this item is made up of 40 NB, while the top bar is made from 50 NB powder coated GI pipes. The frame is made from 25 NB and 20 NB GI pipes. The frame is attached to the top pipe by heavy-duty ball bearing with special casting, for load sustaining. All pipes are 'A' class pipes All Structures Are Of Powder Coating . All Work Done As Per General Raw Material Sheet Added Below 	PGKD05	No	33700.00	old rate
6	CIRCULAR SWING Rec. Age :- 3 - 10 yrs. The area :- 1.5 m x 2 m Safe play area :- 2.5 m x 3 m The leg support of this item is made up of 40 nb, while the top bar is from 50 nb powder coated gi pipes. The swing frame is made from 25 nb and 15 nb powder coated gi pipes. All pipes are 'A' class pipes There are two seats provided which are made out of molded plastic in ROTO moulding process. The platform is made using aluminum chequered plate for footrest and bearing assembly is made. All Structures Are Of Powder Coating . All Work Done As Per General Raw Material Sheet Added Below 	PGKD06	No	40800.00	old rate

7	ROCKING BOAT Rec. Age :- 3 - 8 yrs. The area :- 1.2 m x 0.5 m Safe play area :- 2.2 m x 1.5 m This item has a rocking movement limited by pipe ears situated symmetrically. It can accommodate two children at a time on its moulded plastic seats. The seats are made from low density polyethylene in rotational mould process. The structure of this item consists of 15 NB and 25 NB powder coated gi pipes bended to give the shape that of the boat. All pipes are 'A' class pipes The seat frame is made in 50 x 3 MS flat with GI plating. All Structures Are Of Powder Coating . All Work Done As Per General Raw Material Sheet Added Below 	PGKD08	No	12500.00	old rate
8	CROSS-N-ZERO This item provides brainwashing experience to the children and enhances their tactical strength. The prisms of 'X' and 'O' are made out of molded plastic while the frame is made out from LLDPE in molding process. The prisms are fixed on powder coated GI pipe frame of 15 NB. All Structures Are Of Powder Coating . All Work Done As Per General Raw Material Sheet Added Below	PGKD10	No	10800.00	old rate

13	SPRING RIDER- JUMBO Area :- 1m x 0.5m Safe play area :- 1.5m x 1m Age :- 3- 6 yrs In this amazing product the Elephant is made up of Fiberglass Reinforced Plastic (FRP). The handle for gripping is made up of 20mm NB GI pipes. The pipes are pure polyester powder coated in order to avoid rusting. Rubber padding is fixed at the bottom end of the tube to absorb the ground impact. The jumbo is mounted on a pair of heavy-duty compression spring. The dia of the spring rod is 20mm. The spring is mounted on 5mm thick plate. And the stand for support is made out of 50mm NB powder coated GI pipes. For a good foundation, M.S. angle of size 25 x 25 x 5 mm thk are provided. All Structures Are Of Powder Coating . All Work Done As Per General Raw Material Sheet Added Below 	PGKD36	No	25400.00	old rate
14	SPRING RIDER- RABBIT Area : 0.4m x 0.75m Safe play area : 1.4m x 1.75m Age : 3-8 yrs This innovative spring rider is an exciting product, which provides unlimited fun to the children playing on it. The rabbit is made up of PP sheet of 12mm thick. The seating arrangement is also made up of PP sheet of 12mm thk. The handles for gripping are made up of 20 NB GI pipes. The rabbit is mounted on a pair of heavy-duty compression spring. The dia of the spring rod is 20mm. Also a GI pipe of 20 NB is provided for footrest. The spring is mounted on 5mm thick plate. And the stand for support is made out of 50 NB GI pipes. Special end caps are used to cover the nuts bolts so that no injury is caused to the child. All Structures Are Of Powder Coating . 63	TURBO TOWER Rec. Age : - 4 - 12 yrs. The area :- 1.8 m diameter Safe play area :- 2.8 m diameter Height :- 2.1 m In this interesting product the center support is made up of 80 NB powder coated GI pipe. The loop given to the turbo towers are made up of 15 GI powder coated GI pipe. The rings of the turbo tower are made up of 20 NB powder coated GI pipes. The bend pipes are made in 25 NB GI pipes. All pipes are 'A' class pipes, There is a sufficient distance between the rings for the children climbing on it. All Structures Are Of Powder Coating . All Work Done As Per General Raw Material Sheet Added Below 	PGSL07	No	41900.00	old rate
64	SATTELITE SCRAMBLER Rec. Age : - 4 - 12 yrs. The area :- 2.4 m x 2.4 m Safe play area :- 3.4 m x 3.4 m Height :- 3.4 m This item comprises top globular frame, ladder frame and support column and steps. The pipes used in this item are 25 NB and 40 NB GI pipes. The top globe is fabricated from 25 NB GI pipes supported on a 40 NB vertical GI pipes. All pipes are 'A' class pipes. The structure is powder coated to avoid rusting and for esthetic look. The steps of the ladders are made from 15 NB GI pipes. The chain ladder is 7mm thk for climbing the scrambler. All Structures Are Of Powder Coating . All Work Done As Per General Raw Material Sheet Added Below 	PGSL08	No	59600.00	old rate
